

Security Assessment Group LLC

Discount for PPACE Union Members

Security Assessment Group LLC, the Las Vegas Burglary Prevention Experts, would like to extend a 10% installation discount to all PPACE Union members on our door reinforcement kits, sliding glass door latches, and our 3M security film.

Door reinforcement kits start at \$69+installation and are available for single or double doors. The kits make a door virtually un-kickable and include extended strike plates, hinge plates, and door shields. Night locks are optional for double door kits.

Sliding glass door latches, for \$29+installation, are pry resistant to 1,000 pounds of forced entry load tension. This keeps a sliding glass door from being lifted or pried out of the frame.

Security film is manufactured by 3M, the leader in window film products. Clear and tinted

options are available for the line of security films that we carry and install. Multiple levels of strength available. Limited lifetime residential warranty from 3M. Security Film makes it very difficult to gain entry through glass doors or windows. (We will meet or beat any quote from an authorized 3M window film dealer.)

Security Assessment group also wants to offer PPACE Union members a free home security assessments. This is a comprehensive assessment where we will discuss the physical security of ones home
